

Concrete Hoppers

Concrete Hoppers - This particular attachment is a self-dumping hopper that automatically starts to unload when bumper release touches the side of a dumpster. After unloading is done, the hopper returns to a locked and upright position. This piece of machinery is also accessible with a cable which enables operation from the seat of the lift truck in order to have the alternative of manually dumping the hopper. There is a locking chain provided in order to lock the hopper to the tine truck. This product is made with reliable and consistent robotic welds for maximum strength. The lift truck dumping hopper also has a blue powder coat finish to maintain durability.
